### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows in view of canceling non-elected claims:

#### **IN THE CLAIMS:**

Claims 10-14 and 16 are canceled.

2. Applicant's election of Group I (claims 1-9 and 15) in the response filed on 8/30/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP 818.03(a)).

3. This application is in condition for allowance except for the presence of claims 10-14 and 16 to species non-elected without traverse. Accordingly, claims 10-14 and 16 have been canceled.

4. Claims 1, 2, 6-9, 15 and 17 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious a light beam scanning apparatus comprising, in addition to the other recited features of the claim, the limitation of "the light emission control means controls the quantity of light in the light beam emitted from the light

emitting means on the basis of the light quantity control signal in association with a light emission period which corresponds to the control of the light emission timing for the light beam based on the image data and which lasts a predetermined period or longer, the light emission control means starts light quantity control based on the light quantity control signal at an appropriate time to compensate for delay, on the basis of a delay in start of light quantity control determined from characteristics of the light quantity control signal, and the light emission control means ends light quantity control based on the light quantity control signal at an appropriate time to compensate for delay, on the basis of a delay in end of light quantity control determined from characteristics of the light quantity control signal”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Pyo whose telephone number is (571) 272-2445. The examiner can normally be reached on Mon-Fri (with flexible hour), First Mon. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Georgia Y. Epps can be reached on (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
